PRINCE SAINI

Full Stack Developer (MERN)

Phone: 9389825898 | Portfolio: princesaini-portfolio GitHub: github.com/codewithprince01 LinkedIn: linkedin.com/in/prince-saini | Email: princesaini974048@gmail.com | Location: Delhi

Adaptable Full Stack Developer with **1.5+ years of experience** in application development, database design, and configuration management. Proficient in building scalable, responsive web applications using the MERN stack. Skilled in frontend optimization, backend development, and delivering high-performance solutions. Passionate about leveraging emerging technologies to create innovative and user-centric applications.

EDUCATION

Bachelor of Computer Applications (BCA)
Quantum University, Roorkee (UK)
CGPA: 7.4 | Sep 2021 - Aug 2024

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, Typescript

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, Node.js, Express.js

Database: MySQL, MongoDB, Firebase

Version Control: Git, GitHub

Core Skills: Data Structures, Algorithms, Object-Oriented Programming (OOP)

EXPERIENCE

Full Stack Developer | Haxways | Nov 2023 - Present

- Developed and optimized both the frontend and backend of a client websites using the MERN stack, ensuring high responsiveness and a seamless user experience.
- Collaborated with the design team to implement visually engaging, interactive, intuitive interfaces aligned with UI/UX best practices.
- Improved **Frontend performance**, **responsiveness**, and cross-browser compatibility for enhanced adaptability across devices.

Web Development Intern | Techonical Infotech | July 2023 – August 2023

- Led the development of a dynamic and responsive website for *Health Care Dr. Tanveer Fatima, Roorkee*, ensuring a seamless user experience aligned with brand values.
- Implemented responsive design principles, multi-device compatibility, fast load times, and smooth navigation for optimal usability.

PROJECTS

INCENTUM | Visit Project | Dec 2024 – Feb 2025

- Developed a live, **responsive loan application website** (*incentum.loans*) enabling users to apply for loans, upload documents securely, and receive approvals efficiently.
- **Designed and implemented** a fully responsive UI using **React.js**, **Redux** and **Tailwind CSS**, ensuring full device compatibility and a seamless browsing experience.
- Integrated secure authentication to enhance user experience.
- Built a dynamic dashboard for users and admin to track loan status and manage documents.
- Developed backend RESTful APIs using Node.js and MongoDB to handle user data and loan applications.
- Focused on professional UI/UX design with **smooth animations** and a minimalist design, enhancing user engagement.

AI TRIP GENERATOR | Visit Project | Aug 2024 - Oct 2024

- Created an "AI-based trip planning application" that dynamically generates personalized travel itineraries based on user input such as destination, trip duration, budget, and group size.
- Integrated Google OAuth, Places API, and Firebase to enable secure user authentication, dynamic data retrieval, and real-time trip storage.
- Developed a user-friendly, interactive frontend and seamless backend functionality using the MERN stack.

ACHIEVEMENTS

- Full Stack Development: Awarded by Haxways.
- Web Development: Certified by Techonical Infotech.
- Robotic Process Automation (RPA): Certified through the Honeywell Empowerment Program.
