PRINCE SAINI

Full Stack Developer (MERN)

Complement Complement Process Complement Complement

An adaptable professional with having 1+ years of experience in application development, configuration management, and database design. Skilled in creating scalable, responsive web applications, with a focus on optimizing performance and enhancing user experience. Passionate about staying updated with industry trends to deliver innovative solutions.

EDUCATION

Bachelor of Computer Applications (BCA) Quantum University, Roorkee (UK)

CGPA: 7.4 | Sep 2021 - Aug 2024

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, TypeScript

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, Node.js, Express.js

Database: MySQL, MongoDB, Firebase

Version Control: Git, GitHub

Core Skills: Data Structures, Algorithms, Object-Oriented Programming (OOP)

EXPERIENCE

Full Stack Developer | Haxways | Feb 2024 - Aug 2024

- Developed and refined both the frontend and backend of a client's website using the MERN stack, ensuring a responsive, user-friendly, and seamless experience across all devices.
- **Collaborated closely** with the design team to implement visually engaging, intuitive, and interactive interfaces aligned with provided references and guidelines.
- Enhanced skills in front-end optimization, responsive design, and cross-browser compatibility ensuring high performance and adaptability in diverse environments.

Web Development Intern | Techonical Infotech | July 2023 - August 2023

- Led the development of a modern and dynamic website for *Health Care Dr. Tanveer Fatima, Roorkee*, delivering seamless functionality and a captivating user interface with the brand's vision and values.
- Crafted an exceptional user experience by implementing responsive design principles, optimizing for multi-device compatibility, ensuring fast load times, and facilitating smooth navigation across platforms.

PROJECTS

INCENTUM | ♥ Visit Project | Nov 2024 – Jan 2025

- **Developed a live, responsive loan application website** (*incentum.loans*) enabling users to effortlessly apply for loans, securely upload documents, and receive swift approvals through an intuitive and user-friendly interface.
- Designed and implemented a fully responsive platform using React.js and Tailwind CSS, ensuring 100% device
 compatibility and a seamless browsing experience.
- Integrated **secure login and user authentication** for a seamless user experience.
- Created a dynamic dashboard for users and admin to track loan status and upload documents efficiently.
- Developed backend APIs with Node.js and MongoDB for managing user data and loan requests.
- Focused on professional UI/UX design with smooth animations and a minimalist approach.
- Achieved enhanced user engagement through visually appealing elements and intuitive navigation.

AI TRIP GENERATOR | ♥ Visit Project | Aug 2024 – oct 2024

- Developed an "Al-based trip planning application" that dynamically generates personalized travel itineraries based on user input such as destination, trip duration, budget, and group size.
- Utilized **Google Authentication**, **Place API**, and **Firebase** to implement secure user authentication, dynamic data retrieval, and real-time trip storage in a responsive AI-based trip planning application.
- Implemented this website using MongoDB, Express.js, React, Node.js (MERN stack) focusing on creating an user-friendly interface and seamless chat experience.

ACHIEVEMENTS

- Full Stack Development: Awarded by haxways.
- Web Development: Acquired from Techonical infotech.
- Robotic Process Automation (RPA): Certified by Honeywell Empowerment Program.
